<p>Writing</p>	  <p>DEAR AUNT HAY LEFT THANK YOU FOR MY LOVELY JIGSAW. LOTS OF LOVE FROM MARINA xxxx</p> <p>Help you Becky maddie</p>	  <p>Logan</p>

8 children aged 3+ took part in a home learning activity with their parents. The findings have been recorded above. Whilst it is clear that the children enjoy a diverse range of toys and activities with their parents, it is evident that gender identities are apparent. With their mothers, the children are more likely to do activities like baking and shopping, whilst with their fathers they are more inclined to do more physical activities.
